

Unit 6 L 5: Coupons and Rebates

Obj: To work out final price after using a coupon or rebate.

Coupon- special discount offered by a retailer. It is usually taken off the total selling price at time of payment.

Rebate- special discount usually offered by the manufacturer. To get a rebate they buyer must usually mail in a rebate coupon along with a sales receipt as proof of purchase, plus sometimes the UPC label from the item.

Important Formula

Final Price = Total Selling Price - Total Savings

(This is without sales tax)
